HR-Reur 12/10/76 to Sprague saying you did not apply for a job but your offer of help to Ken Brooten still stands: even Bud now has strong doubts. He discussed them with me 12/17. I have no doubts. All with them is from bleak to very bad. As you will have gathered they are spewing out as fact the fabrications of the Ray prosecution even after they have the courtroom proof it is all false. What they have done on JFK to date is ludicrous. Again even Bud agrees they are terribly silly in their best momants on JFK alone. In any event, if you want to do your thing your way I strongly urge you to await the new session so you can see if you want to have any association with them after they are renewed. These as police-state go-getters who don&t care much what they get except those who care and know about getting what errant officialdom wants gotten. Be careful. Do not be in a position for your good name to be traded upon. Best HW 12/21/76
